INTERPRETATION:

Your score is competitive for many colleges.

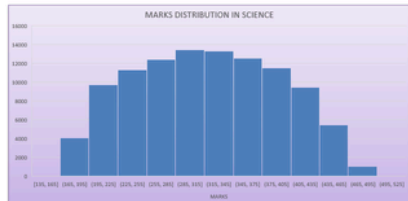

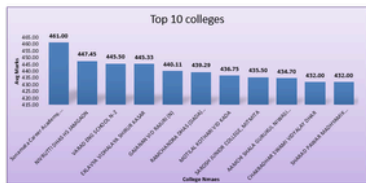

COMMERCE:

SCIENCE:

- This donut chart quickly visualizes the dominant medium of instruction in different region of the total data.
- its clear color coding allows users to instantly compare regional language distributions without reading through raw data tables.

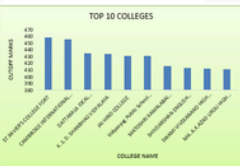

- Slicer Utility: The Region slicer actively filters this chart to dynamically display the top 10 Science cutoffs for individual areas like Latur, Mumbai, or Pune.

Flow Labels	Max of Cutoff_Marks	status
Amravati	484	Aided
Aurangabad	485	Government / Local B...
Kolhapur	492	Partially Aided (20%...
Latur	500	Self Financed
Mumbai	488	Un-Aided
Nagpur	481	
Nashik	479	
Pune	495	

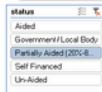

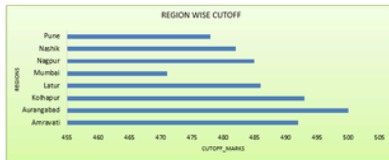

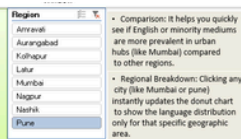

- The majority of Science category cutoffs are heavily concentrated in the lower score ranges, peaking in the second bin before tapering off significantly.
- Extremely high cutoff marks are exceptionally rare, with very few students or colleges falling into the highest ranges.

ARTS:

stream	Arts	KPI	stream	Arts
Row Labels	AvG of Cutoff_Marks	Total Arts Colleges	Row Labels	Count of medium

SHIVDARSHAN ENGLISH MEDIUM	413			
SWAMI VIVEKANAND HIGH SCHOOL	412			
MA. A.K. AZAD URDU HIGH SCHOOL	411			
Grand Total	4229	167		

- St. Xavier's College Fort leads the Arts stream with the highest cutoff score of 458 marks.
- The top ten colleges are highly competitive, maintaining a high overall average cutoff score of 429 marks.

- The chart shows Region - wise cutoff of marks in Arts Stream.
- Using the Status slicer allows users to instantly compare how these regional admission thresholds fluctuate between Aided, Un-Aided, and Self-Financed institutions.

- The majority of general category cutoffs are heavily concentrated in the lower ranges between 173 and 263 marks. The frequency drops sharply as scores increase, showing that very few seats require high cutoffs above 383 marks.
